

LIVEABOARD

Commercial Coxswain Training

BECOME A COXSWAIN AT SEA AND GAIN REAL-WORLD EXPERIENCE

Imagine yourself standing on the deck of a 20m commercial sailing ship, the wind in your hair and the sun on your face. You're part of the working crew, responsible for navigating the ship, maintaining the machinery, and keeping everyone safe.

This is just one of the many exciting experiences you'll have on our liveaboard commercial Coxswain training course. We'll teach you everything you need to know to work at sea, from survival skills to firefighting to maritime law.

But this isn't just a classroom course. You'll be learning on the job, living on the ship for the duration of the course. This means you'll get hands-on experience with everything you're learning, and you'll build up your sea time so you can apply for your Coxswain Certificate of Competency.

Our trainers are all highly qualified and experienced mariners, and they'll make sure you step off the vessel as a competent and practical mariner.

So what are you waiting for? Enroll today and start your journey to becoming a Coxswain!
